*Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11,27-29,35 and 36, drawn to using time information written in cell headers being to order cells in ascending order, which can be classified in class 713, subclass 178.
  - II. Claims 12-19,30,31 and 37, drawn to a grouping input lines of an *i*th stage switch, which can be classified in class 370, subclass 388.
  - III. Claims 20-23,32 and 38-40, drawn to buffering and queuing system, which can be classified in class 379, subclass 266.03.
  - IV. Claims 24-26,33 and 34, drawn to network load equalization, which can be classified in class 709, subclass 235.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions each operate differently and for different functions and they are not disclosed as operating altogether.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above

Art Unit: 2662

and the search required for each group is different, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### ***Conclusion***

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Odland whose telephone number is (571) 272-3096. The examiner can normally be reached on Monday - Friday from 8am to 5pm.
